## > The need to shred Shouldn't need you

### Automatic Shredders - Time To Do More

Not enough time to stand at the paper shredder? When bulk shredding, Rexel Optimum AutoFeed+ automatic shredders are proven to save 98%\* of the time you waste hand feeding documents into a standard shredder. Optimum AutoFeed+ provides a full range of automatic paper shredders that will boost workplace productivity, whilst securely shredding sensitive documents.

**Stack**

**Shut**

**Done**

## Rexel AutoFeed Key Features

**Optimum AutoFeed+ shredders reduce shredding time by 98%**, compared to hand fed shredders; considerably boosting productivity in the workplace. Users can simply load a stack of paper, shut the lid and walk away, safe in the knowledge that the machine will complete shredding jobs securely and quietly.

Optimum automatic shredders range in size to suit all workplace environments from the home to large corporate offices; providing small **personal shredders** (Optimum 45X and 50X), to **large business** and departmental shredder machines (Optimum 300X/M and 600X/M). With AutoFeed you can bulk shred up to 750 sheets of paper in one load.

### Sheet Capacity

Simply load a stack of up to 750 x sheets of A 4 paper, shut the lid and walk away whilst the shredder does its job.

### Ultra Quiet

Maintain a calm working environment with the ultra quiet noise level.

### Shreds Efficiently

P4 cross cut shreds into 400 pieces.  
P5 micro cut shreds into 2000 pieces.

**P5**

**P4**

### Pull Out Bin

The shredder has a pull out bin for easy emptying.

### Manual Slot

Manual feed slot shreds up to 15x A4 sheets at a time.

### PIN Lock

PIN lock paper chamber for added security.

### Castor Wheels

Castor wheels for ease of movement. 225X/M models and above.

## The issues with manual feed

### **Too slow**

The timely process of hand feeding paper sheets

### **Inefficient**

You have to calculate the right number of sheets to insert.

### **Impacts productivity**

Employee time is wasted hand feeding paper

### **Loud operation**

Traditional shredders can be loud and disruptive

## Reasons to upgrade to AutoFeed

### **Save time and money**

Increase productivity by saving 98% of employees time shredding

### **Bulk shred**

Shred up to 750 sheets of A4 paper in a single load

### **Minimal effort**

Simply stack the paper in the shredder, shut the lid and walk away.

### **Quiet operation**

Low noise level as shredding takes place in a closed chamber

[illegible]

Up to 4 hours continuous run time with fan cooling. Sleep mode activates after 3 minutes of non use.

No need to manually feed paper, or remove staples and paper clips first, this automatic paper shredder will do all the work for you.

Shredder security is based on P-ratings. The different AutoFeed security levels are explained below so you can select the right security level for your needs.

**P5**

P-5 security level - Shreds a sheet of A4 paper in to over 2,000 micro-cut pieces

**P4**

P-4 security level – shreds a sheet of A4 paper in to 400 cross-cut pieces

## Secure PIN Lock

The PIN lock uses a four digit custom PIN code to ensure that only the original user can retrieve un-shredded documents. Available from the 300X/M models upwards.

## Anti-Jam Technology

Anti-jam technology prevents paper jams when manually feeding documents. Interactive anti-jam technology walks the user through how to clear a jam, using the forward and reverse buttons.

## Bin Full Sensor

The infra red bin full sensor on the touch control panel will illuminate red if the bin becomes full and requires emptying.

## Key Benefits at a Glance

### Boost productivity

Save 98% of your employee's time spent shredding compared to traditional shredders.

### Save employees time

Eliminate a mundane time-consuming task and enable employees to continue with more important and interesting tasks.

### Ensure paper-based data security

Our high security shredders help to support GDPR compliance.

### Bulk shred

Securely shred up to 600 sheets of paper at a time for maximum efficiency.

### Minimal effort required

Simply stack the paper in the shredder, shut the lid and walk away.

### Fewer distractions

Quieter operation with a closed paper chamber.

### No disruptions

Quiet operation as shredding takes place in a closed paper chamber.
