

Fellowes Perfect Lamination. Every Time

Why Laminate your documents?

A laminated document becomes more durable with a quality, professional looking finish. Lamination protects, preserves and enhances the colour and contrast of the print, keeping materials e.g. signage and displays in like-new condition for many years. A laminated document looks better, lasts longer.

Selecting the Right Laminator

1 Where and how often will the laminator be used?

Office
Frequent Use

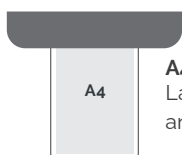

Small Office
Moderate Use

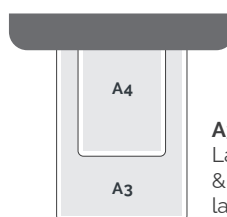

Personal & Home Office
Light Use

2 What size documents do you want to laminate?

A4 Laminator
Laminates A4, A5, A6, photos and smaller sizes

A3 Laminator
Laminates A3, A4, A5, A6, photos & smaller sizes and for fast A4 laminating with SuperQuick pouches

3 What is the maximum pouch thickness you would like to laminate?

The more microns, the thicker the pouch and the more rigid and robust the finished result. The thicker the pouches accepted, the more versatile the machine and the more applications for which it can be used.

4 What benefits would you like to get from your laminator?

Detects pouch thickness and self-adjusts to the optimal laminating setting

Ready to laminate in as little as 30-60 seconds every time

Clear Path mechanism, and pouch reverse / release features prevent jams when used with Fellowes pouches

Powers down after periods of inactivity, reducing energy consumption

Reduces the surface temperature of the laminator, ensuring it is safe to touch

Allows immediate, manual switching between different pouch thicknesses

Detects potential jams, stops laminating and allows user to reverse and realign the pouch

Indicator light tells the user when the laminator is ready to accept the next pouch

What To Laminate?

When it comes to laminating the possibilities are endless. Whether you want to enhance the colours in your documents, capture the moment when laminating photos, or preserve documents - Fellowes can provide the solution.

Fellowes Office Laminators

Laminate your important documents in record time with an office laminating machine from Fellowes. Fast laminating and quick heat up, ideal for high-volume loads and offering complete protection for a professional and long-lasting look.

Venus A3 Laminator - with AutoSense™

FREQUENT USE. OFFICE

up to
250
micron

- Ultra-fast! Laminates an A4 pouch in as little as 10 seconds!
- Rapid 30-60 seconds heat-up with InstaHeat technology
- 6-rollers for high quality results - accepts all pouches up to A3 & 250 microns (2x250)
- Prioritise best quality or fastest speed via Pro-setting.
- Automatically detects pouch thickness and self-adjusts to the optimal laminating setting for ultimate ease of use
- Advanced pouch tracking system with mini light guide detects potential paper jams and automatically reverses, for productive and jam free performance
- Large, foldable entry and exit trays for perfect pouch guidance from start to finish
- 3 year warranty after product registration and includes Free 10-pouch laminating starter kit and cleaning sheet

Jupiter A3 Laminator - with AutoSense™

FREQUENT USE. OFFICE

up to
250
micron

- Laminates an A4 pouch in as little as 17 seconds!
- Rapid 60 seconds heat-up with InstaHeat technology
- 6-rollers for high quality results - accepts all pouches up to A3 & 250 microns (2x250)
- Automatically detects pouch thickness and self-adjusts to the optimal laminating setting for ultimate ease of use
- Advanced pouch tracking system with mini light guide detects potential paper jams and automatically reverses, for productive and jam free performance
- Large, foldable exit tray for perfect pouch guidance from start to finish
- 3 year warranty after product registration and includes Free 10-pouch laminating starter kit and cleaning sheet

Neptune 3 A3 Laminator - with AutoSense™

FREQUENT USE. OFFICE

up to
175
micron

- Laminates an A4 pouch in under 30 seconds!
- Automatically detects pouch thickness and self-adjusts to the optimal laminating setting for ultimate ease of use
- Ready to laminate in just 60 seconds with InstaHeat Technology
- Advanced Pouch Tracking System detects potential paper jams and automatically reverses, for productive and jam free performance
- Free laminating starter pack of 10 pouches and cleaning sheet included.

Amaris A3 Laminator - with InstaHeat™

FREQUENT USE. OFFICE

up to
175
micron

- Laminates an A4 pouch in under 30 seconds!
- Rapid 60 seconds heat-up with InstaHeat technology
- Individual temperature settings can laminate all pouches up to 175 microns (2x175) and cold pouches
- Auto-shut off after 30 min of inactivity
- Manual reverse for removing and re-aligning mis-fed pouches
- Includes Free 10-pouch laminating starter kit and cleaning sheet
