Recommending the Right Shredder

to Meet Customer Requirements

Why Shred?

Avoiding data breaches

Shredding can help prevent data breaches, which can be costly and damaging to individuals and businesses.

A majority of businesses still handle a large amount of sensitive printed information on a daily basis.

Paper documents pose one of the most underrated risks to companies

With everything being digital nowadays people often forget to include the element of paper data in the security policy.

GET GDPR COMPLIANT

Paper waste management

A shredder is an easy and effective way to recycle your paper waste. When paper documents are shredded into smaller particles, and properly disposed it will help to reduce waste and improves the recycle process

Prevent identity theft

Shredding personal information such as bank statements and credit card bills can prevent identity theft

Keep organised

Shredding helps reduce clutter and improve organisation, making it easier to manage paperwork and maintain a tidy workspace.

What level of security is needed?

Strip-Cut

Basic ▶

P-1 & P-2
≥100 strips
per A4 sheet

For low-risk non-confidential data. Not recommended for business environments or personal information

Cross-Cut

Higher ▶

P-3 & P-4
≥300 particles
per A4 sheet

For medium-risk sensitive personal or confidential data like delivery notes with address and client information

Mini-Cut

Advanced ▶

P-4
≥1000 particles
per A4 sheet

For higher-risk sensitive personal or confidential data like account numbers and invoices

Micro-Cut

Superior ▶

P-5
≥2000 particles
per A4 sheet

For highly confidential data like balance sheets, strategy documents and patents etc..

What feed type is required?

Manual

The ideal solution for employees to shred their confidential documents instantly - without unnecessarily leaving paper on the desk or at the printer.

Automatic

Perfect if you prefer to do all your shredding in one go. Just load up press play and walk away!

Hybrid

Combine the best of automatic and manual shredding experience in one machine - Shred instantly and get on with your work while shredding is in progress.
